.Net Architect
Indra
jan/2012-feb/2016

Proyect Lead in a project focused on dismantling nuclear stations. In addition managing Database and TFS, build definition with custom activities and auto deploy. We use .Net technology, Sql Server, WWF and WCF.

Senior Software Developer
Indra
jun/2009 - jan/2012

Enresa : Database and TFS administrator in a project focused on dismantling nuclear stations. We use .Net, Sql Server, WWF and WCF.
UMIVALE : As a senior programmer analyst I was responsible for the development of an application for Windows Mobile PDAs using C#.NET Compact Framework, HessianMobile, Resco Components for WM and Oracle 9i.

Thyssenkrupp Elevators : My main role was the development of new components aimed at changing the database model from decentralized to centralized as well as providing technical support in the client´s offices on new development strategies. (VB 6.0, SQL Server, ComPlus, .Net and Citrix).

Senior Software Developer
Moviquity
mar/2007-jun/2009

During my time at Moviquity I was involved in several projects for different clients such as :
Union Fenosa : development of a Windows Forms application in VB.Net 2008, Oracle 10.i and Windows Presentation Foundation technology aimed at the management of the company operations in the Spanish energy market.
Gas Natural : development of a Web application in VB.Net 05, VB.Net 08 and Oracle 10.i in order to improve the company´s shipping efficiency.
Navantia/Unipsa : development of a Web application for the creation and maintenance of insurance policies (VB.Net 2005 and Oracle).
Banco de España : development of a Credit Risk Assessment Windows Forms app (VB.Net 2005 and Oracle) integrated with Microsoft Excel, Visual Studio Tools and Microsoft BizTalk.

Electrabel : development of Windows Forms applications, management reports and files in order to improve our customer´s strategical decisions. (VB.Net 2003 and Oracle).

Software Developer
POSA
jun/2006-mar/2007

My main role was the maintenance and new developments in VB.Net, SQL Server and Evolution of applications for our clients Uno-E and BBVA.
